

## 08.1.5 Azure: Live Lab: Managing Cloud Automation

Cloud+ (Exam CV0-004)

Duration: 59 minutes, 44 seconds

Congratulations, you passed!

☒ What four scheduled tasks are available? (Select all that apply)

Score: 1

- ☒ Send monthly cost for resource
- ☒ Start Virtual Machine
- ☒ Power off Virtual Machine
- ☒ Deallocate Virtual Machine
- ☐ Reboot Virtual Machine
- ☐ Send annual cost for resource
- ☐ Send weekly cost for resource

Correct

☒ What two connections are required? (Select all that apply)

Score: 1

- ☒ Azure Resource Manager
- ☒ Office 365 Outlook
- ☐ OneDrive
- ☐ Email address
- ☐ SSH-enabled account

Correct

☒ What two connections are required? (Select all that apply)

Score: 1

- ☒ Azure VM
- ☒ Office 365 Outlook
- ☐ Azure Resource Manager
- ☐ Email address
- ☐ OneDrive
- ☐ SSH-enabled account

Correct

☒ What information can be found on line 6 of the template?

Score: 1

- ☒ "defaultValue": "container07",
- ☐ "type": "String"

- ☐ "containerGroups\_container07\_name": {
- ☐ "contentVersion": "1.0.0.0",

Correct

☒ How many containers are displayed?

Score: 1

- ☐ One
- ☒ Two
- ☐ Three
- ☐ Four

Correct

☒ What container image is displayed in the Image column? (You may need to expand the Image column to see the image name) Score: 1

- ☒ aci-helloworld:latest
- ☐ aci-python-test:latest
- ☐ aci-webapp:latest
- ☐ aci-ms-testapp:latest

Correct

☒ What subnet is displayed in the Subnet section?

Score: 1

- ☒ subnet-a
- ☐ subnet-b
- ☐ subnet-c
- ☐ subnet-1

Correct

☒ Which of the following answers best describes why you did not have to configure the image and network settings for container11? Score: 1

- ☒ The settings came from the container07 json file.
- ☐ Those settings are automatic and cannot be configured.
- ☐ The settings came from the container07 PowerShell script.
- ☐ The settings came from the container07 bash shell script.

Correct

☒ What two virtual machines are displayed in the Virtual machines console? Score: 1

- ☒ Test-Server01
- ☒ Test-Windows02
- ☐ Server01
- ☐ Windows02
- ☐ Linux-vm-01

Correct

☒ What three management options are displayed at the top of the window? Score: 1

- ☒ Download
- ☐ Add to library
- ☒ Deploy
- ☐ Revert
- ☒ Copy Content

Correct

☒ Is the small-linux-vm template you created in an early activity displayed? Score: 1

- ☒ Yes
- ☐ No
- ☐ Undetermined

Correct

☒ Is the basic-container template you created in an early activity displayed? Score: 1

- ☐ Yes
- ☒ No
- ☐ Undetermined

Correct

☒ What information about a container is stored in its JSON file? Score: 1

- ☒ All configuration information
- ☐ Information that must be manually entered by an administrator
- ☐ Information that does not need to be manually entered by an administrator
- ☐ Monthly cost reporting information

Correct

☒ Could a JSON file be used to move a resource from a development to a staging environment for deployment? *Score: 1*

- ☒ Yes
- ☐ No
- ☐ Undetermined

Correct

☒ Which of the following cloud attributes best describes the benefit of an administrator making a template library of frequently used resources available to the developer team to create when needed? *Score: 1*

- ☒ On-demand self-services
- ☐ Broad network access
- ☐ Resource pooling
- ☐ Rapid elasticity
- ☐ Measured service

Correct
