

5.1 Applied Lab: Connecting to a Cloud VM via RDP

Candidate: Kendrick Gaines ()

Time Spent: 03:20

Score: 100%

Task Summary

Required Actions

-
- ✓ Download an RDP file that will allow you to connect to CorpCloud1
-
- ✓ Connect to CorpCloud1 via RDP
-

Explanation

Complete this lab as follows:

1. Launch Windows on ITAdmin.
 - a. Right-click ITAdmin and select Launch Windows.
2. Download an RDP file that will allow you to connect to CorpCloud1.
 - a. Maximize the Google Chrome window for better viewing.
 - b. Under Resources > Recent, select **CorpCloud1**.
 - c. From the top menu bar, select **Connect > RDP**.
 - d. Verify that the **Public IP address** and Port Number **3389** are selected.
 - e. Select **Download RDP File**.
3. Run the downloaded RDP file to connect to CorpCloud1 via RDP.
 - a. From the bottom left, select the **CorpCloud1.rdp** file.
 - b. You are now logged in to your CorpCloud1 server in Azure.
